

epicgames-freegames-node

[Link](#)

```
version: '3.3'
services:
  claabs:
    volumes:
      - '/srv/path/EpicGames/:/usr/app/config:rw'
    ports:
      - '3901:3000' #originally 3000:3000
    image: 'ghcr.io/claabs/epicgames-freegames-node:latest'
    restart: unless-stopped
```

Put `config.json` in `/srv/path/EpicGames/`

Original config

```
{
  "runOnStartup": true,
  "cronSchedule": "0 0/6 * * *",
  "logLevel": "info",
  "webPortalConfig": {
    "baseUrl": "https://epic.example.com",
  },
  "accounts": [
    {
      "email": "example@gmail.com",
    },
  ],
  "notifiers": [
    // You may configure as many of any notifier as needed
    // Here are some examples of each type
    {
      "type": "email",
      "smtpHost": "smtp.gmail.com",
      "smtpPort": 587,
      "emailSenderAddress": "hello@gmail.com",
      "emailSenderName": "Epic Games Captchas",
    }
  ]
}
```

```
"emailRecipientAddress": "hello@gmail.com",
"secure": false,
"auth": {
  "user": "hello@gmail.com",
  "pass": "abc123",
},
},
{
  "type": "discord",
  "webhookUrl": "https://discord.com/api/webhooks/123456789123456789/A-abcdefghijklmn-
abcdefghijklmnpqrst12345678-abcdefghijklmnp123456",
  // Optional list of users or roles to mention
  "mentionedUsers": ["914360712086843432"],
  "mentionedRoles": ["734548250895319070"],
},
{
  "type": "telegram",
  // Optional Custom TELEGRAM server URL
  "apiUrl": "https://api.telegram.org",
  "token": "644739147:AAGMPo-Jz3mKRnHRTnrPEDi7jUF1vqNOD5k",
