```

Then :

```
docker exec -it koel_koel_1 bash
```

Once inside the container, you can run commands:

```
php artisan koel:init --no-assets
```

Log in with email admin@koel.dev and password KoellsCool

Whenever the music in /music changes, you will need to manually scan it before koel is able to play it. Run the following command:

```
docker exec koel_koel_1 php artisan koel:sync
```
