environment:

ENABLE\_UWSGI: 'no'

ENABLE\_NGINX: 'no'

ENABLE\_CELERY\_BEAT: 'no'

ENABLE\_MIGRATIONS: 'no'

depends\_on:

- migrations

docker-compose up -d

CSS will probably be missing because reasons, so bash into `web` container

```
docker exec -it mediacms_web_1 /bin/bash
```

Then

```
python manage.py collectstatic
```

No need to reboot

---

When editing `settings.py` , just reload `celery_worker` , `celery_beat` and `web` containers

---
