

# MinMon

[Link](#)

Create `/srv/Files/Minmon/minmon.toml` . Example config [here](#). More info on config [here](#).

```
version: "3"

services:
  minmon:
    image: ghcr.io/flo-at/minmon:latest
    volumes:
      - /srv/Files/Minmon/minmon.toml:/etc/minmon.toml:ro
      # The following line is required for the DockerContainerStatus check.
      - /var/run/docker.sock:/var/run/docker.sock
```
