

Trilium

Link

```
version: '3.3'
services:
  trilium:
    ports:
      - '8080:8080'
    volumes:
      - '/srv/path/Files/Trilium/trilium-data:/home/node/trilium-data'
    image: 'zadam/trilium:latest'
```

```
chmod 777 /srv/path/Files/Trilium/trilium-data
```

Since this effectively allows reading/writing this directory to any user on the system, it's recommended to do this on only single-user systems. This directory will be used (mounted) below.

Enhance Mobile View experience:

Mobile view plugin: <https://github.com/BeatLink/trilium-scripts/tree/main/Mobile%20View> (Thanks [dude](#))

Create a new note.

Create 7 sudnotes and follow instructions:

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/SetNoteView.js>

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/SetRightPanelView.js>

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/SetSidebarView.js>

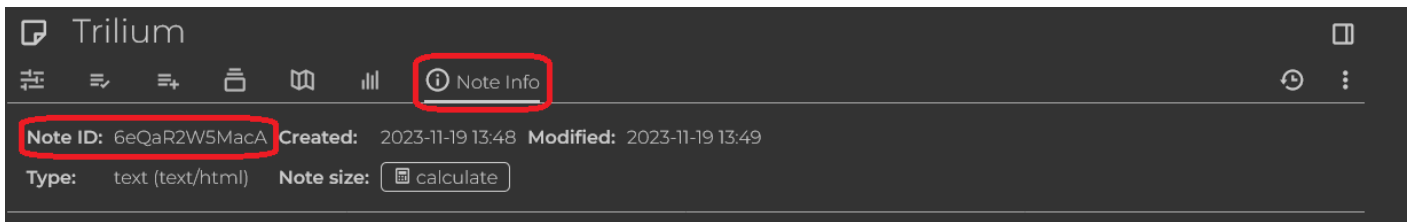

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/ToggleMobileView.js>

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/SetupButtons.js>

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/SetHTMLMeta.js>

<https://github.com/BeatLink/trilium-scripts/blob/main/Mobile%20View/MobileView.css>

Note: "<path-to-....js>" is the "Note Id" under "Note Info"

More plugins:
